Whether you are using our site, mobile application, other online platforms or contact centres, this policy applies. The following definitions apply to this policy: Data subject means any natural person about whom the University collects and holds personal information and includes students, staff members, contractors, alumni and friends, donors, and visitors to the University's sites or campuses. This Policy covers our Snapchat app as well as our other products, services, and features, such as Bitmoji, Spectacles, and our advertising and commerce initiatives. The score is best used as an indicator of how much additional work a person will need to do to make an informed decision about a product. Your privacy is important to us, and safeguarding your privacy is fundamental to our business. Instead, a general area helps protect your privacy and it's typically much larger than sq mi outside of cities. When you read Services in this Policy, we're talking about all of Effective. Ma Be aware when you leave the Service; we suggest you read the terms and privacy policy of each third-party site and online service that you visit. The general area of your search does not identify you. A higher score (up to %) means the product provides more transparent privacy policies with better practices to protect user data. About this Agreement You can view, , · Every privacy rating includes an overall score.
