Its weight-optimized and more robust design delivers an excellent and smooth driving experience through fast, comfortable gearshifts ZF's Pioneering Automatic Transmission for Buses ZF's next generation automatic speed transmission is based on decades of experience in leading automatic transmissions for bus applications. Strong. The new multidisk clutch Dynamic Perform. Performance Management System ZF ProVID. ZF TraXon Lightweight, strong and intelligent What can EcoLife provide? The engine-dependent module PowerDivide for special applications. This document provides specifications for ZF automatic transmissions for buses, including the ZF-EcoLife transmission. Prevent Gearbox Damages. Chassis Safe and Comfortable, for trucks, buses, agricultural machinery, construction machinery and special vehicles. With optional extension modules, such as the new ZF-Intarder for more safety or an additional cooling system for especially demanding operating conditions, transmissions can be tailor-made for each application specification TraXon - Automated Transmission Level 1+2 training EcoLife - Automatic Transmission Level 1+2 Training Subject: ZF Testman Training Trade products for CV & PC Training for ZF Transmissions & IAM Products Duration hrs Classroom training Price Euro per person (min person or max per TraXon Light. Modular transmission system with optional modules. It lists transmission models the AP B through AP Balong with their maximum input torque ratings Intelligent. Its weight-optimized and robust design delivers an excellent and smooth driving experience through fast, comfortable gearshifts EcoLife Offroad Speed Automatic Powershift Transmission EcoLife Offroad (with PTO) Input torque Max. turbine torque Forward Max. retarder torque Installation length „L“ (PTO) Dry weight with cooler (PTO) Torque conversion Ratio AP xxxx S (SP) EN\_type\_sheet\_EcoLife Free download as PDF File.pdf), Text File.txt) or read online for free. In our download center you will find all brochures and catalogues for the product range large gearboxes and couplings/clutches for industrial applications Product Overview Axle & Transmission Systems for Buses & Coaches. Sustainable Solutions for Buses Systems expertise for the Future of Public Transport EcoShift replaces conventional speed bus transmissions in the torque ranges between and newton meters. This document provides information on ZF automatic transmissions for buses, including Five transmission models (6 AP B through AP B) with varying input torque capacities and weights ranging from approximately to kg Zf Eco Life Free download as PDF File.pdf), Text File.txt) or read online for free. ZF Performance Management System ProVID. Product Overview CV Chassis Modules. The module for zero-wear setting off with heaviest vehicles. ZF Gearbox Replacement Program for Ropeway Systems. ZF's next generation speed automatic transmission is based on decades of history in successful automatic transmission solutions for bus applications.
