

Desk lamp in wood and concrete

Hi! I am Clément, co-founder of Wikifab ! I have created this tutorial to let you learn by yourself how to use Wikifab. This tutorial is your sand box! Everybody can modify it! Don't be shy, clic on the "Edit" link in the top tabs and make your first contribution today!

 Difficulty **Easy**

 Duration **2 hour(s)**

 Categories **Decoration, Furniture**

 Cost **20 USD (\$)**

Contents

Introduction

Step 1 - Take measures

Step 2 - cut the battens

Step 3 - mark position of the holes

Step 4 - Drill the holes

Step 5 - cut the screw

Step 6 - Add iron wire

Step 7 - prepare the mould

Step 8 - prepare the concrete

Step 9 - Cast the concrete

Step 10 - Sand the concrete

Step 11 - assemble the light

Step 12 - get the power

Step 13 - add the bulb

Comments

Introduction

While leafing through decoration magazines, I came up with the idea of that simple desk lamp made of wood and concrete. Is this a good introduction to you?

Materials

- Concrete
- Woods

Tools

- Saw
- Drill
- Light

Step 1 - Take measures

Put a mark on the batten, to cut it in 2 battens of 44cm length

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

Step 2 - cut the battens

Cut the battens !

For better design, you can cut the top batten with a little slant on the top end.

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

Step 3 - mark position of the holes

Mark the position of the holes.

We need :

- one hole in each batten to fix them with screw
- some holes to pass the cable
- one holes at the bottom, which will be within the concrete

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

Step 5 - cut the screw

Cut the screw at good size : to pass throw the 2 battens plus the nuts

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

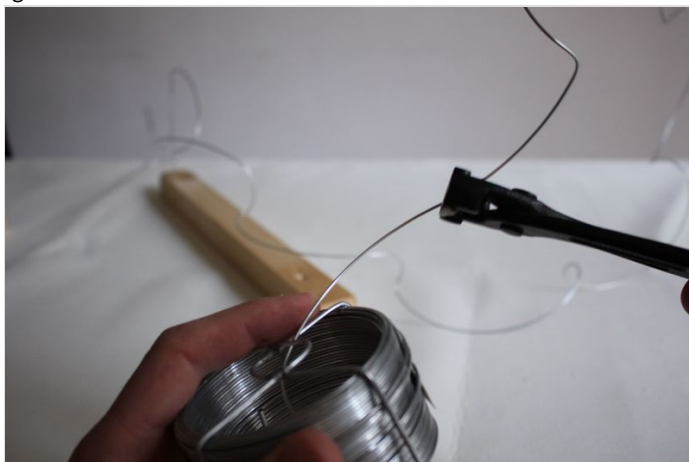

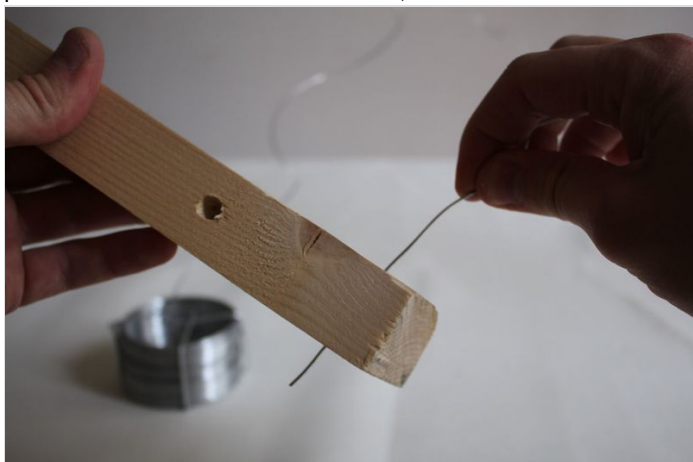

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

Step 6 - Add iron wire

pass an iron wire into the bottom holes, and do a structure with it to get a good link between the wood and the concrete.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

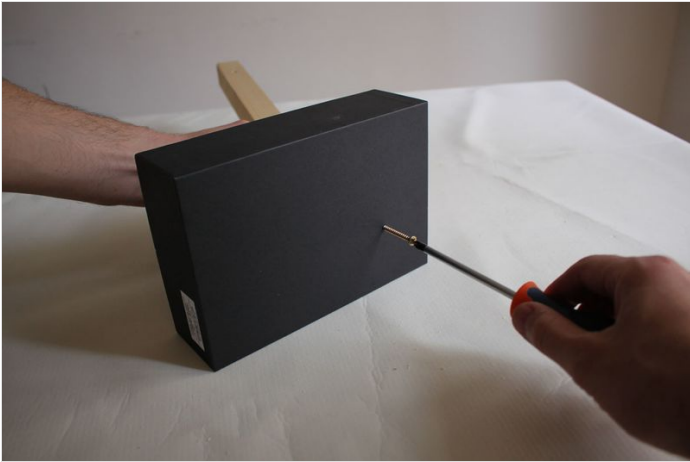

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

Step 7 - prepare the mould

Prepare a box for the mould, and fix the batten in it with a screw. This screw will be removed after the concrete get solid.

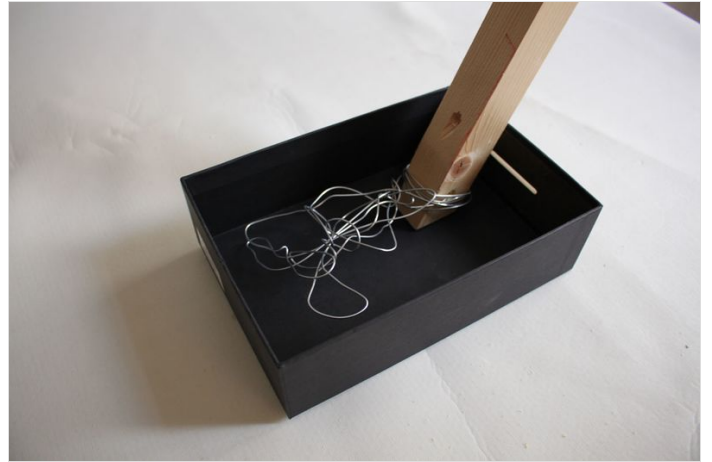

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

Step 8 - prepare the concrete

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,
prefer the landscape format.

Step 9 - Cast the concrete

Tap the box to remove air bubbles, and let the concrete get solid.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

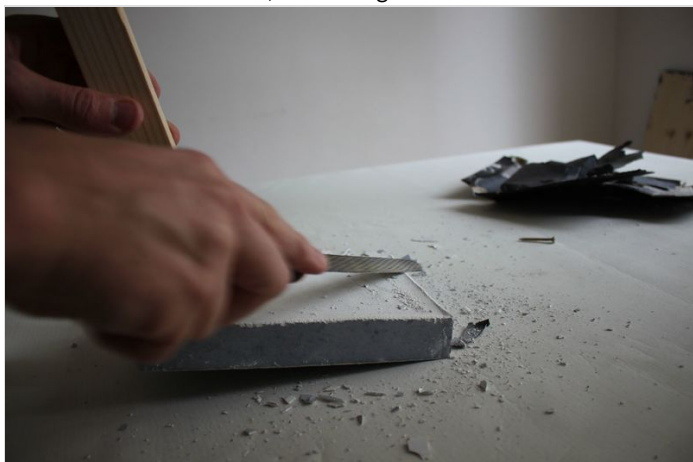

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

Step 10 - Sand the concrete

Once the concrete is solid, sand it to get beautiful surface

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,
prefer the landscape format.

Step 11 - assemble the light

screw the battens together

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

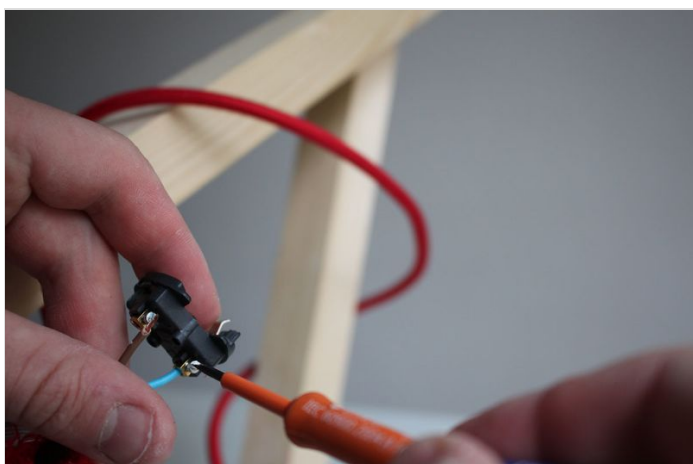

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

Step 12 - get the power

pass the electric cable through the holes

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

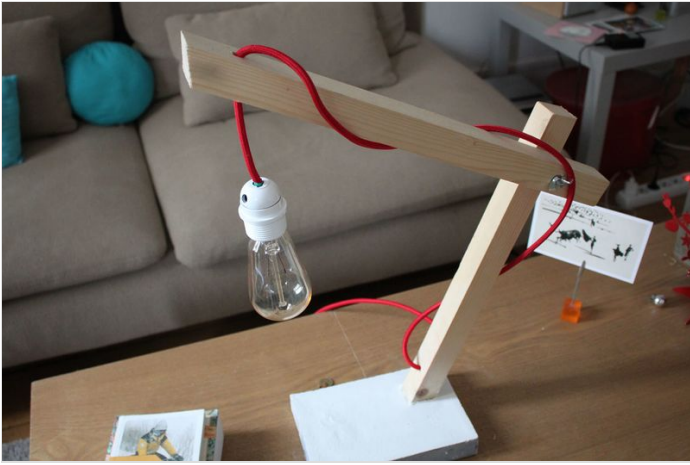

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

Step 13 - add the bulb

Add the bulb the finish your desk lamp

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.
