Étape 1 - Open AudFree Tidal Music Converter and sign in Tidal

Download, install and open AudFree Tidal Music Converter. On its main screen, choose "Log in" to sign in your Tidal account. Note that the 2.0 version of AudFree Tidal Music Converter develops an inbuilt Tidal Web Player. As a result, you get access to download Tidal songs to local computer without the installation of Tidal app.

Outils

Étape 2 - Set output format and parameters

Next, click the three-line icon on the top right and follow "Preferences" from the drop-down list. In "Preferences" window, tap on "Advanced" to open the format settings panel, in which you are free to choose Lossless, MP3, M4A, FLAC, WAV, etc. as output format and further customize audio parameters as you need.

Étape 3 - Add and select Tidal music to AudFree

Once done, click "+" icon to confirm and save these format settings. Then, find your favorite Tidal playlist or album from Tidal music library. Open the playlist or album and simply touch the "+" icon on the bottom right to load Tidal music.

In the pop-up conversion list, you can uncheck "Select All" option and choose your desired Tidal tracks to convert.
