

Librem 5 Case

Create your own customized Librem 5 case!

 Difficulty **Medium**

 Duration **5 hour(s)**

 Categories **Clothing & Accessories, Electronics**

 Cost **20-350 EUR (€)**

Contents

Introduction

Step 1 - Develop the 3d files and circuits needed for your case or adapt someone else's project you have found at Wikifab

Step 2 - 3d-print your case or craft it in an other way

Step 3 - Assemble additional parts like cables, sensors, LEDs or whatever you want

Step 4 - Share your case files and manuals and meet other creators at Wikifab

Comments

Introduction

Notice: Until now, there were neither developed nor created any cases for the Librem 5 because the shape and the dimensions of the phone are not finalized yet.
